EXPERIENCE

Oracle | *Software Engineer* San Francisco, CA | **June 2025 - Present**

- Architected an agentic workflow builder adopted by multiple customers in production for support chat
- Developed and deployed an OCR + RAG pipeline that ingested over 2 million documents in less than a month
- Collaborated across multiple teams to deliver AI agent to human agent handoff

Oracle | *Software Engineer Intern* Redwood City, CA | **June 2024 - September 2024**

- Developed and deployed a Helidon MP Microservice featuring CRUD endpoints to upload documents for RAG
- Designed a type-safe way for an existing Oracle JET Knockout project to manage global state with 30+ variables
- Automated testing for over 90% of scenarios in a REST microservice that supports LLM queries and file uploads

Oracle | *Software Engineer Intern* Redwood City, CA | **June 2023 - September 2023**

- Developed new features for internal and consumer-facing applications used in the Oracle Health LOB
- Collaborated with full-time developers to facilitate scrum meetings, code reviews, and production releases

Trailblaze | *Co-Founder & CTO* Boston, MA | **January 2021 - April 2024**

- Developed screens, services, and database architecture for a job-recruiting mobile app in React Native
- Launched and grew mobile app to over 10,000 users in less than one year
- Designed and developed our company's public-facing website using Next.js

CareerFoundry | *Web Development Instructor* Remote, US | **July 2022 - May 2023**

- Taught new students in the industry to develop full-stack web applications
- Provided groups of students with feedback on projects within 24 hours of submission
- Collaborated with course mentors to provide students with careers in the web development industry

EDUCATION

Northeastern University | BS *Computer Science and Business (Fintech concentration)* Boston, MA | **June 2025**
Khoury College of Computer Sciences
Related Courses: Object-Oriented Design | Algorithms and Data | Fundamentals of Computer Science 1 & 2 | Intro to Web Development | Discrete Structures | Foundations of Cybersecurity

SKILLS

Languages:	TypeScript | JavaScript | Go | Java | Python | SQL | GraphQL | HTML | CSS
AI:	Prompting | Multi-Agent Orchestration | RAG | Embeddings | Vector DBs | LangChain | LangGraph | Claude Code | Codex
Frameworks:	React | React Native | Next.js | Node.js | Express | Tailwind CSS | Helidon | Jest
Tools:	OCI | Oracle 26ai Database | AWS | Terraform | Kubernetes | GitHub | Jira | Figma | SQL Developer
Concepts:	REST APIs | Server-Side Rendering | Git Versioning | UI/UX | Design Thinking | Agile Development
